Welcome

It is a pleasure to welcome you to the first International Clinical Update in Endocrinology (ICUE) in India.

ICUE is being organized as a collaborative effort between the Endocrine Society of India (ESI), International Society of Endocrinology (ISE), the Society for Endocrinology (UK) and The Endocrine Society (USA). This truly international collaboration brings together four of the world’s most dynamic endocrine societies, to share evidence and experience, to improve the science of endocrinology in India.

The meeting will be held on February 1st and 2nd 2014 in Hyderabad, India and will be hosted by the ESI.

The faculty are world-renowned experts in different specialities of endocrinology, bringing cutting edge science to the forum. Science will be disseminated through an artful combination of plenary sessions, lectures, informal best practice panel discussions, meet the professor meetings and case presentations. The tailor-made program will deliver the latest clinical research, new therapies and address domestic health care needs.

This audience-centric approach will provide attendees the opportunity to learn from internationally recognized faculty and network with colleagues in a highly diverse and interactive environment.

This international meeting will be of interest to, and will be attended by delegates from a wide spectrum of specialities, including internal medicine, endocrinology, gynaecology, paediatrics, urology, andrology and orthopaedics as well as providing essential training for both trainees and accomplished endocrinologists. It aims to attract attendees from India and abroad. All participants are sure to take back fun-filled and academically rich memories of both Hyderabad cuisine and culture and international endocrine expertise.

We look forward to meeting you in Hyderabad.

International Society of Endocrinology(UK)

Sanjay Kalra  
National Programme Co-Chair

Rakesh Sahay  
Organizing Secretary

For latest information visit www.icuendo.org/india
The 700 member strong Endocrine Society of India began in 1971 and has established itself as a dynamic organization in recent years. It publishes the Indian Journal of Endocrinology & Metabolism, a vibrant “open access” and Indexed Society Journal. One of the recent publications has been the widely acclaimed ESI Manual of Clinical Endocrinology. On the regional front the ESI has spearheaded the formation of the five – nation South Asian Federation of Endocrine Societies.

Established in 1960, ISE is a strategic network of National Endocrine Societies which aims to co-ordinate scientific exchange and stimulate global co-operation between endocrinologists and associated scientific professionals around the world. Its membership comprises over 70 national endocrinology societies, representing nearly 50,000 endocrinologists worldwide. The flagship of the ISE remains its International Congress which is now held in rotation every two years in partnership with one of its National Societies across The Americas, Europe/Africa and Asia/Oceania. In addition, a key part of the ISE strategic plan is to provide support to its member societies in developing nations, many of which also lack continental representation. Participating actively in this venture are three of the world’s leading endocrine professional bodies, from USA, UK and India.

Established in 1946, the Society for Endocrinology (UK) is the major British society representing professionals at all levels, from undergraduate, masters and doctorate students, scientists- and clinicians in-training to nurses, scientists and clinicians who work with hormones. The Society supports Members at every stage of their career and is involved in a wide range of activities to advance the pace of research, education and awareness of hormone-related conditions. With over 2,200 Members, the Society for Endocrinology is increasing its membership base both in the UK and overseas.

Founded in 1916, The Endocrine Society (USA) is the world’s oldest, largest, and most active organization devoted to research on hormones and the clinical practice of endocrinology. Its 16,000 strong membership, from over 100 countries, represents a wide diversity of disciplines and professional backgrounds.

Stream Leaders

**Jayne Franklyn**
University of Birmingham, U.K

Areas of expertise:
- Thyroid disease – pathogenesis and long term consequences

---

**Nihal Thomas**
Christian Medical College, Vellore, India

Areas of expertise:
- Diabetes, hyperinsulinemic euglycaemic clamp studies, indirect calorimetry and NMR spectroscopy

---

**Peter Trainer**
Christie NHS Foundation Trust, UK

Areas of expertise:
- Pituitary adrenal disease, Cushing’s syndrome, acromegaly, cortisol bioavailability

---

**Anil Bhansali**
Postgraduate Institute of Medical Education & Research Chandigarh

Areas of Interest:
- Adrenal disorders, Pituitary and Diabetes

---

**Manash P Baruah**
Excel Center(a unit of Excelcare Hospitals) Ulubari, Guwahati, India

Areas of expertise:
- Clinical Diabetology and Clinical Thyroidology

---

**Richard J. Auchus**
University of Michigan Medical School

Areas of expertise:
- Steroidogenesis and related diseases, reproductive endocrinology, Endocrine genetics and tumor syndromes.

---

**Jayne Franklyn**
University of Birmingham, U.K

Areas of expertise:
- Thyroid disease – pathogenesis and long term consequences

</tr>
</tbody>
</table>

Notes
• All rates are inclusive of currently applicable service tax @ 12.36%
• Country of work determines the applicable registration fee.
• Trainees/Students will need to provide a certificate from the Head of Department or Institution confirming eligibility.

Registration fees include:
• Opening Ceremony, Saturday, 1 February 2014
• Welcome Dinner, Saturday, 1 February 2014
• Delegate bag and Meeting literature
• Access to all scientific sessions and the exhibition hall
• Access to ‘Meet the Professor’ on 1 & 2 February 2014
• Lunch, tea/coffee breaks on each day of the Meeting

SAARC /Indian
Delegates must be practicing in one of the SAARC countries or India to be eligible to register at the SAARC/Indian registration rate.

Meet the Professor
You can attend one Meet the Professor per session, which are taking place on 1 & 2 February 2014. Please see the Meet the Professor page for further details.

How to Register

Book online
Delegates can register online for the Meeting, using a secure credit card payment site. Please visit http://icuendo.org/india/registration/online-registration/

Book offline
Please complete and return the form attached to this booklet, with payment to the Meeting Secretariat as mentioned in the Form.
Payment by bank transfer

- Please ensure all mandatory fields are filled in your form, along with Demand Draft or Payment/Transaction Advice before you courier it to the Meeting Secretariat. This is necessary to identify you and confirm your payment.
- Registration forms indicating payment by Bank Transfer but received without a copy of Payment/Transaction Advice cannot be considered.
- Please note all bank transfer charges are to be paid by delegate. Please add the bank transfer charges to the amount you pay to your bank. Banks will deduct processing fees from the amount transferred, which could result in your registration being incomplete. To avoid this, please add the bank transfer charges to the amount you pay to your bank.
- After the transfer has been made, please ask for a Payment/Transaction Advice from your bank. Enclose a copy of that Payment/Transaction Advice with this form. This is necessary to identify you as the person who paid. Registration Forms indicating payment by Bank Transfer but received without copy of Payment Advice cannot be considered.

Payment/Transaction Advice Reference Number:
Receiving Account Details to be provided to your bank when requesting Bank Transfer:
Name of Bank: State Bank of India
Account Number: 32993640759
Account Holder: ICU Endocrinology 2014
IFSC Code: SBIN0010356
SWIFT Code: SBININBB122
Bank Address: Osmania General Hospital Branch, Begum Bazar, Hyderabad

Payment by demand draft (delegate from India only)
Please make your Demand Draft in favour of “ICU Endocrinology 2014” payable at Hyderabad. Registration forms without payment will not be accepted. Please courier your completed registration form, along with Demand Draft or Payment/Transaction Advice to:
Meeting Secretariat
KW Conferences Pvt. Ltd.
A-56/12, DLF Phase – I Gurgaon – 122002,
Haryana, India
Ph: +91 124 463 6700
Fax: +91 124 410 2075

Confirmation of Payment
Registration confirmation and a receipt of payment will be sent to you by email. Further details and directional maps will be posted on this website shortly before the Meeting.

Cancellation and Refund Policy
Registration bookings received in writing by the Meeting Secretariat will be processed thirty days (March 3, 2014) after closure of the Meeting at the following rates.

On or before December 1, 2013 – 15% cancellation Fee will be charged.
Between December 1, 2013 – January 15, 2014 – 25% cancellation Fee will be charged.
From January 16, 2014 – No Refunds (100% cancellation shall be applicable).
- Cancellation to be emailed to the Meeting Secretariat at regn@icuendo.org. Verbal communication not admissible.
- Date of receipt of communication for cancellation will be used for calculating amount of refund.
- Refunds will be credited only to the account from where registration amount was received.

Welcome to Hyderabad

Hyderabad, the fifth largest city in India, presents a beautiful fusion of ancient & modern civilization and culture. The 400 year-old city is famous for its natural beauty, medieval and modern architectural marvels, handicrafts, culture and gourmet food.

Hyderabad has developed as the centre for many industries like IT, biotechnology, pharmaceuticals, heavy machinery, aerospace and medical equipment & facilities. The city is also fast emerging as an important destination for a variety of bulk drugs manufacturers and as a biotech corridor. The healthcare sector, specifically treatment and diagnostics, is another burgeoning area. The city is already home to over 60 multispeciality hospitals. Corporate sector hospitals propose to spend as much as ₹5 billion over the next few years, to improve their diagnostic facilities and open speciality departments. This has led to Hyderabad being the hub for Medical Tourism in the country.

Hyderabad has direct international connectivity to Europe (London), Middle East and South East Asia. One can reach Hyderabad either with a direct connection from any of the major hubs connecting Hyderabad or via New Delhi, Mumbai or Kolkata.

Hyderabad International Convention Centre
Novotel & HICC Complex (Near Hitec City)
PO. Bag 1101, Cyderabad Post Office, Hyderabad – 500 081, India
Website: www.hicc.com

HICC is the first purpose-built and state-of-the-art convention facility of its kind in South Asia. HICC in every aspect, be it infrastructure, services or technology, compares with the best in the world. It is a Green Globe certified convention centre and is proud to be the winner of the ‘Best Convention Centre’ National Tourism Award by Incredible India for three years in a row.

Accommodations
Novotel Hyderabad Convention Centre, adjacent to HICC, is a 5-star 287 room hotel built to suit the requirements of the discerning business traveler. For hotel booking, email hotels@icuendo.org or visit us on the web at http://icuendo.org/india/accommodation/hotels/
